

Noblis

[Noblis](#) has been putting innovation to work for NOAA satellite programs since our first contract with NOAA/NESDIS in 1985 to support Polar and GOES ground systems acquisitions, planning, and engineering. Our work continues today as NOAA/NESDIS prepares for JPSS and GOES-R. [Noblis](#) is a nonprofit science, technology, and strategy organization that brings the best of scientific thought, management, and engineering expertise with a reputation for independence and objectivity. We promote resilient and sustainable solutions and apply our scientific, technical, and business capabilities to meet critical mission requirements. Together with our wholly owned subsidiaries, [Noblis ESI](#) and [Noblis NSP](#), we solve difficult problems of national significance for a wide range of government and industry clients in the areas of national security, intelligence, transportation, healthcare, environmental sustainability, and enterprise engineering.
